

Never Miss a Road Service Call with AXIS CloudReceive

Would you like your auto club to efficiently take calls from your members even during scheduled system outages?

With AXIS Cloud Receive, our cutting-edge cloud-based solution, your team can do all that and more, ensuring your members always get the promised road service.

See the Big Picture

View all active service events on one screen, alongside each member's name, location, call status and problem code.

Easily Log Calls

When taking calls, log member information such as their name, location, vehicle and problem in just a few clicks.

Assign Calls to Drivers

Track the location of each driver and assign calls to them based on their proximity to the road service request.

Sync with Your ERS System

Eliminate double entry by importing all relevant member, vehicle, auto club, driver, garage and tow destination information.

Protect Your Data

Avoid losing your data by keeping it saved in the cloud.
